AQUACHEM
THE ESSENCE OF WATER.

o nama

Tvrtka Aquachem osnovana je 2004. godine kao specijalizirana tvrtka za distribuciju opreme za izgradnju i opremanje privatnih i javnih bazena, svih tipova fontana i jezera te sustave navodnjavanja. Tijekom godina Aquachem se kontinuirano razvijao te sukladno zahtjevima tržišta, proširuje asortiman proizvoda i usluga te povećava broj djelatnika. Isto tako izgrađene su nove uredske prostorije, proizvodni pogon, servis i skladište s 1 000 paletnih mjesta.

Samim time stvoreni su preduvjeti da Aquachem na tržištu nastupa kao najkompetentnija tvrtka u branši te je u mogućnosti odgovoriti na svaki izazov i ponuditi kompletna rješenja od ideje i razvoja do konačne realizacije projekta.

about us

Aquachem, a company founded in 2004, specializes in distributing equipment for constructing and equipping residential and municipally pools, as well as all types of fountains, lakes and irrigation systems. Throughout the years, and in accordance with market requirements, Aquachem has been continuously evolving, expanding the range of products and services and increasing the number of its employees. Likewise, new offices have been built along with a production site, a service department and a warehouse with 1 000 palette places.

This gives Aquachem all the prerequisites to be the most competent company in its branch on the market, making it possible for Aquachem to take on every challenge and offer complete solutions, starting from an idea and development and ending with a project realization.
